Freedom homecare staff;

I and on behalf of my mother, want to Thank You All for all that you do. It is for certain that you provide more than care to those in need. You're helping my mother change her sheets, take a shower safely, socialize and eat, extend way beyond the simple fact of helping one elderly person through their day.

As a family member it touches me to know that someone of trust and quality will check-in on mom care for her needs and give her some interaction that is impossible for me to supply on that day. I gives me peace of mind, restful sleep, and restores my faith in human kind.

During this past year there were times when you folks were the only contact mom had with the outside world. The only stimulus that kept her from becoming horribly senile from loneliness.

If the past year has taught us anything it's about how important it is for people to connect with people. The staff's willingness to serve, meet needs, tend, and risk themselves goes above the call of simple humanity doing a job.

You all have the commitment and dedication of super heroes and Saints, providing a richness of care that is both tangible and intangible. I truly hope that there is such a thing as karma and fate that will repay you each tenfold for all your acts of kindness.

Many Thanks,
With sincere gratitude,

In peace,
Pamela
